Homework 01 CSE 2122

1. Opens the file "myFile.txt". While the EOF hasn't been reached, the user inputs a string into the file and the string is output to the console. Then the file is closed.
2.   if (n % 2 != 0) {

          cout << n;

      }

3. /*
4.   File name: HW1Problem3.cpp
5.   Created by: Mikayla Conforto
6.   Created on: 1/17/2023
7.   Synopsis: Prints hello world
8. */
9.
10. #include <iostream>
11.
12. using namespace std;
13.
14. void printScreen() {
15.   cout << "Hello world!";
16. }
17. //Do not edit the main function!
18. int main()
19. {
20.   printScreen();
21.
22.   return 0;
23. }
